

# November 2025

Welcome to this month's newsletter. This month we will be looking at Class Violet and Class Rose. We will also be looking at some of the work that went on during Science Week.

## Class Rose

This month Class Rose had great fun riding bikes with the Bike Buddies, visiting the sensory garden and having some fun in Leisure Maxx. They also went to music and danced with Martina. Here are a few pictures from their month.

# Class Violet

Class Violet also had a busy month. They also went on tour and they enjoyed some messy play. They went swimming and joined in with science week.

Here are a few photos from their month.

# Science Week

November saw the whole school participate in Science Week. Experiments occurred throughout the school with every day of the week dedicated to a different aspect of science.
